No doubt whatsoever Covid 19 was stolen from Canada and taken to Wuhan by Chinese agents

MAY 18
Posted by **Editor, cairnsnews**

Cairnsnews broke this story in Australia on January 28, 2020 exposing the theft of a virus from a Canadian laboratory, then taken to Wuhan. Here is testimony from one of the foremost authorities on biological weapons, Dr Francis A Boyle who confirms the Canadian theft and says the WHO has had this information for some time.

From GreatgameIndia

In an explosive interview Dr. Francis Boyle, who drafted the US Biological Weapons Act has given a detailed statement admitting that the 2019 Wuhan Coronavirus (https://greatgameindia.com/category/coronavirus-covid19/) is an offensive Biological Warfare Weapon and that the World Health Organization (WHO) already knows about it.

- *EXCLUSIVE: Coronavirus Bioweapon (https://greatgameindia.com/coronavirus-bioweapon/) – How China Stole Coronavirus From Canada And Weaponized It (watch here Visualizing The Secret History Of Coronavirus (https://greatgameindia.com/secret-history-of-coronavirus-bioweapon/))*
- *Watch the exclusive interview of Bioweapons Expert Dr. Francis Boyle on Coronavirus Biological Warfare (https://greatgameindia.com/dr-francis-boyle-creator-of-bioweapons-act-says-coronavirus-is-biological-warfare-weapon/) blocked by the Deep State (https://greatgameindia.com/what-is-the-deep-state/)*

- Francis Boyle is a professor of international law at the University of Illinois College of Law. He drafted the U.S. domestic implementing legislation for the Biological Weapons Convention, known as the Biological Weapons Anti-Terrorism Act of 1989, that was approved unanimously by both Houses of the U.S. Congress and signed into law by President George H.W. Bush.
- In an exclusive interview given to *Geopolitics and Empire*, Dr. Boyle discusses the coronavirus (https://greatgameindia.com/category/coronavirus-covid19/) outbreak in Wuhan, China and the Biosafety Level 4 laboratory (BSL-4) from which he believes the infectious disease escaped. He believes the virus is potentially lethal and an offensive biological warfare weapon or dual-use biowarfare weapons agent genetically modified with gain of function properties, which is why the Chinese government originally tried to cover it up and is now taking drastic measures to contain it. The Wuhan BSL-4 lab is also a specially designated World Health Organization (WHO) research lab and Dr. Boyle contends that the WHO knows full well

Dr. Boyle also touches upon *GreatGameIndia* (https://greatgameindia.com)'s report Coronavirus Bioweapon (https://greatgameindia.com/coronavirus-bioweapon/) – where we reported in detail how Chinese Biowarfare agents working at the Canadian lab in Winnipeg were involved in the smuggling of Coronavirus (https://greatgameindia.com/category/coronavirus-covid19/) to Wuhan's lab from where it is believed to have been leaked.

Top authority on bioweapons, Dr Francis Boyle confirms the Cairnsnews story that Covid 19 was stolen from a Canadian lab then taken to Wuhan bio-weapons laboratory with the full knowledge of WHO

Dr. Boyle's position is in stark contrast to the mainstream media's narrative of the virus being originated from the seafood market, which is increasingly being questioned by many experts.

Recently, American Senator Tom Cotton of Arkansas also dismantled the mainstream media's claim (https://greatgameindia.com/us-senator-tom-cotton-questions-mainstream-medias-narrative-on-coronavirus-origin/) on Thursday that pinned the coronavirus (https://greatgameindia.com/category/coronavirus-covid19/) outbreak on a market selling dead and live animals.

In a video accompanying his post, Cotton explained that the Wuhan wet market (which Cotton incorrectly referred to as a seafood market) has been shown by experts to not be the source of the deadly contagion.

Cotton referenced a Lancet study (https://www.thelancet.com/journals/lancet/article/PIIS0140-6736(20)30183-5/fulltext) which showed that many of the first cases of the novel coronavirus (https://greatgameindia.com/category/coronavirus-covid19/), including patient zero, had no connection to the wet market — devastatingly undermining mainstream media's claim.

"As one epidemiologist said: 'That virus went into the seafood market before it came out of the seafood market.' We still don't know where it originated," Cotton said.

"I would note that Wuhan also has China's only bio-safety level four super laboratory that works with the world's most deadly pathogens to include, yes, coronavirus (https://greatgameindia.com/category/coronavirus-covid19/)."

China claimed—for almost two months—that coronavirus had originated in a Wuhan seafood market. That is not the case. @TheLancet (https://twitter.com/TheLancet?ref_src=twsrc%5Etfw) published a study demonstrating that of the original 40 cases, 14 of them had no contact with the seafood market, including Patient Zero. pic.twitter.com/PdgqgHjkGy (https://t.co/PdgqgHjkGy)

— Tom Cotton (@SenTomCotton) January 30, 2020 (https://twitter.com/SenTomCotton/status/1222962874932453377?ref_src=twsrc%5Etfw)

Such concerns have also been raised by J.R. Nyquist (https://greatgameindia.com/coronavirus-chinas-secret-plan-to-weaponize-viruses/), the well known author of the books "*Origins of the Fourth*

World War" and "*The Fool and His Enemy*," as well as co-author of "*The New Tactics of Global War*". In his insightful article (https://greatgameindia.com/coronavirus-chinas-secret-plan-to-weaponize-viruses/) he published secret speechs given to high-level Communist Party cadres by Chinese Defense Minister Gen. Chi Haotian explaining a long-range plan for ensuring a Chinese national renaissance – the catalyst for which would be China's secret plan to weaponiz viruses (https://greatgameindia.com/coronavirus-chinas-secret-plan-to-weaponize-viruses/).

Nyquist gave three different data points for making his case in analyzing Coronavirus (https://greatgameindia.com/category/coronavirus-covid19/). He writes:

The third data point worth considering: the journal GreatGameIndia (https://greatgameindia.com/) has published a piece titled "Coronavirus Bioweapon (https://greatgameindia.com/coronavirus-bioweapon/) – How China Stole Coronavirus From Canada And Weaponized It."

EXCLUSIVE#Coronavirus (https://twitter.com/hashtag/Coronavirus?src=hash&ref_src=twsrc%5Etfw) Bioweapon Thread

How China Stole Coronavirus From Canada And Weaponized Ithttps://t.co/tc7W2DrmAA (https://t.co/tc7W2DrmAA)

— GreatGameIndia (@GreatGameIndia) January 27, 2020 (https://twitter.com/GreatGameIndia/status/1221783626678861824?ref_src=twsrc%5Etfw)

The authors were clever enough to put Khan's Virology Journal article together with news of a security breach by Chinese nationals at the Canadian (P4) National Microbiology Lab (https://greatgameindia.com/chinese-researchers-caught-stealing-coronavirus-from-canadian-lab/) in Winnipeg, where the novel coronavirus was allegedly stored (https://greatgameindia.com/canadian-lab-acquires-coronavirus-sample/) with other lethal organisms. Last May, the Royal Canadian Mounted Police were called in to investigate (https://greatgameindia.com/canada-investigates-chinas-biological-espionage/); by late July the Chinese were kicked out of the facility (https://greatgameindia.com/chinese-researchers-caught-stealing-coronavirus-from-canadian-lab/). The chief Chinese scientist (Dr. Xiangguo Qiu (https://greatgameindia.com/dr-xiangguo-qiu-chinese-biological-warfare-agent/)) was allegedly making trips between Winnipeg and Wuhan.

Here we have a plausible theory of the NCoV organism's travels: first discovered in Saudi Arabia (https://greatgameindia.com/a-novel-coronavirus-capable-of-lethal-human-infections-an-emerging-picture/), then studied in Canada (https://greatgameindia.com/canadian-lab-acquires-coronavirus-sample/) from whence it was stolen by a Chinese scientist (https://greatgameindia.com/chinese-researchers-caught-stealing-coronavirus-from-canadian-lab/) and brought to Wuhan. Like the statement of Taiwan's intelligence chief (https://greatgameindia.com/taiwan-intelligence-sars-a-chinese-bioweapon/) in 2008, the GreatGameIndia (https://greatgameindia.com/) story has come under intensive attack (https://greatgameindia.com/chinese-biowarfare-agents-at-harvard-university-caught-smuggling-viruses/#Facebook_lies_and_blocks_GreatGameIndia). Whatever the truth, the fact of proximity and the unlikelihood of mutation (https://greatgameindia.com/indian-scientists-discover-coronavirus-engineered-with-aids-like-insertions/) must figure into our calculations.

A recent email we received telling us not to share a link to the @GreatGameIndia (https://twitter.com/GreatGameIndia?ref_src=twsrc%5Etfw) website. My best guess is they are lying about the trojan in an attempt to get us to censor information. #InformationWarfare (https://twitter.com/hashtag/InformationWarfare?src=hash&ref_src=twsrc%5Etfw) #PsychologicalOperations (https://twitter.com/hashtag/PsychologicalOperations?src=hash&ref_src=twsrc%5Etfw) #Psyops (https://twitter.com/hashtag/Psyops?src=hash&ref_src=twsrc%5Etfw) https://t.co/JW9osWuYkr (https://t.co/JW9osWuYkr) pic.twitter.com/iaCjvGA02o (https://t.co/iaCjvGA02o)

— Geopolitics & Empire (@Geopolitics_Emp) February 3, 2020 (https://twitter.com/Geopolitics_Emp/status/1224372641223577606?ref_src=twsrc%5Etfw)

It's highly probable that the 2019-nCoV organism is a weaponized version (https://greatgameindia.com/coronavirus-bioweapon/) of the NCoV discovered by Saudi doctors in 2012.

Meanwhile, the mainstream media's narrative still maintains that the origin of the 2019 Coronavirus (https://greatgameindia.com/coronavirus-bioweapon/) is the Wuhan Seafood Market. After *GreatGameIndia (https://greatgameindia.com/)* published the story on Coronavirus Bioweapon (https://greatgameindia.com/coronavirus-bioweapon/) – not only were our databse tinkered with and our reports blocked by Facebook (https://greatgameindia.com/chinese-biowarfare-agents-at-harvard-university-caught-smuggling-viruses/#Facebook_lies_and_blocks_GreatGameIndia) on the flimsy reason that they could not find GreatGameIndia Facebook page (https://facebook.com/greatgameindia/), but the report itself was viciously attacked by Foreign Policy magazine, PolitiFact (known widely as Facebook's propaganda arm) (https://www.politifactbias.com/) and BuzzFeedNews.

It is not *GreatGameIndia* (https://greatgameindia.com/) alone which is being viciously attacked. Zero Hedge, a popular alternate media blog was suspended by Twitter for publishing a story related to a study (https://greatgameindia.com/indian-scientists-discover-coronavirus-engineered-with-aids-like-insertions/) by Indian scientists finding 2019 Wuhan Coronavirus (https://greatgameindia.com/coronavirus-bioweapon/) to be not naturally evolved (https://greatgameindia.com/indian-scientists-discover-coronavirus-engineered-with-aids-like-insertions/), raising the possibility of it being created in a lab. Shockingly, the study itself came under intense online criticism by Social Media experts resulting in the scientists withdrawing the paper.

In retaliation India has launched a full-scale investigation against China's Wuhan Institute of Virology (https://greatgameindia.com/coronavirus-india-to-investigate-wuhan-institute-of-virology/). The Indian government has ordered an inquiry into a study (https://greatgameindia.com/coronavirus-india-to-investigate-wuhan-institute-of-virology/) conducted in the Northeastern state of Nagaland (close to China) by researchers from the U.S., China and India on bats and humans carrying antibodies to deadly viruses like Ebola.

#FrankPlummer (https://twitter.com/hashtag/FrankPlummer?src=hash&ref_src=twsrc%5Etfw) – renowned Winnipeg based Canadian National Microbiology Laboratory scientist key to #Coronavirus (https://twitter.com/hashtag/Coronavirus?src=hash&ref_src=twsrc%5Etfw) investigation has died in mysterious conditions in Africa. He was the one who received Saudi SARS Coronavirus sample which was smuggled to Wuhanhttps://t.co/VjvQMURTyT (https://t.co/VjvQMURTyT)

— GreatGameIndia (@GreatGameIndia) February 6, 2020 (https://twitter.com/GreatGameIndia/status/1225296297617326081?ref_src=twsrc%5Etfw)

The study came under the scanner (https://greatgameindia.com/coronavirus-india-to-investigate-wuhan-institute-of-virology/) as two of the 12 researchers belonged to the Wuhan Institute of Virology's Department of Emerging Infectious Diseases, and it was funded by the United States Department of Defense's Defense Threat Reduction Agency (DTRA).

The study (https://greatgameindia.com/coronavirus-india-to-investigate-wuhan-institute-of-virology/), conducted by scientists of the Tata Institute of Fundamental Research, the National Centre for Biological Sciences (NCBS), the Wuhan Institute of Virology, the Uniformed Services University of the Health Sciences in the U.S. and the Duke-National University in Singapore, is now being investigated for how the scientists were allowed to access live samples of bats and bat hunters (humans) without due permissions.

The results of the study (https://greatgameindia.com/coronavirus-india-to-investigate-wuhan-institute-of-virology/) were published in October last year in the *PLOS Neglected Tropical Diseases* journal, originally established by the Bill and Melinda Gates Foundation.

As the author J.R. Nyquist puts it:

We must have an investigation of the outbreak in Wuhan. The Chinese must grant the world total transparency. The truth must come out. If Chinese officials are innocent, they have nothing to hide. If they are guilty, they will refuse to cooperate.

The real concern here is whether the rest of the world has the courage to demand a real and thorough investigation. We need to be fearless in this demand and not allow "economic interests" to play a coy and dishonest game of denial. We need an honest inquiry. We need it now.

About Editor, cairnsnews

One of the few patriots left who understands the system and how it has been totally subverted under every citizen's nose. If we can help to turn it around we will, otherwise our children will have nothing. Our investigations show there is no 'government' of the people for the people of Australia. The removal of the Crown from Australian Parliaments, followed by the incorporation of Parliaments aided by the Australia Act 1987 has left us with corporate government with policies not laws, that apply only to members of political parties and the public service. There is no law, other than the Common Law. This fact will be borne out in the near future as numerous legal challenges in place now, come to a head soon.

Who has benefited?

The American Genie – Engineering a Catastrophe –

"……Further information has now come to light on evidence that SARS-CoV-2 was genetically engineered following a detailed scientific study into the genome of the virus. Ironically perhaps, the focus of the anonymous analyst seems to have been to incriminate the Chinese government "communist party" and its research lab in Wuhan. As explained by "GM Watch", despite this political angle and the suspect anonymity of the unpublished research, the science it presents is very persuasive. Significantly however, they question the analyst's view that the synthetic virus was designed as a bioweapon, "though it may have been". They conclude:

"In our view, the evidence presented above shows that there is an urgent need for a credible and independent international investigation into the origins of SARS-CoV-2 and the roles played by Shi Zhengli, the Chinese government, and the US bodies that helped fund the virus research at the WIV, including the National Institutes of Health and the EcoHealth Alliance."

It may be a surprise for some to learn of US involvement in research at the Wuhan Institute of Virology, but it should be a shock to learn how this collaboration came about and who was involved. As recently revealed in the mainstream publication Newsweek, America's high-profile scientific expert Dr Anthony Fauci strongly supported GOF research, and following the ban in the US was involved in funding a similar project in Wuhan. That five-year project ended in 2019 and was extended:

"A second phase of the project, beginning that year, included additional surveillance work but also gain-of-function research for the purpose of understanding how bat coronaviruses could mutate to attack humans. The project was run by EcoHealth Alliance, a non-profit research group, under the direction of President Peter Daszak, an expert on disease ecology. NIH canceled the project just this past Friday, April 24th, Politico reported. Daszak did not immediately respond to Newsweek requests for comment."

Newsweek notes that Dr. Fauci also did not respond to their requests, and other media didn't pick up the story. But:

"according to Richard Ebright, an infectious disease expert at Rutgers University, the project description refers to experiments that would enhance the ability of bat coronavirus to infect human cells and laboratory animals using techniques of genetic engineering. In the wake of the pandemic, that is a noteworthy detail.

Ebright, along with many other scientists, has been a vocal opponent of gain-of-function research because of the risk it presents of creating a pandemic through accidental release from a lab."

As well as supporting GOF research, for reasons described by Newsweek, Dr. Fauci was renowned for his work on HIV, and more recently on bird flu viruses. He also was involved in the development of Remdesevir, which he has recently promoted as a treatment for COVID-19 cases despite little evidence for its efficacy, in contrast to the widely used Hydroxychloroquine favored by the US President – and many others around the world.

But the treatment or consequences of the release of this novel Coronavirus are not my concern at this crucial junction point – or rather disjunction point – in history.

Having concluded some time ago that the origin of the SARS-CoV-2 virus was most probably the bio-insecure facility at Fort Detrick, the one question that remained unanswered was how and why it appeared in Wuhan, and what happened in the months before it was first identified there.

A number of impossibly unlikely coincidences led to that conclusion, in particular the first detected appearance of the virus in the hotel where US soldiers stayed during the World Military Games, held between October 18th and 27th 2019 in Wuhan. Coincidentally and indicatively also, a "novel Coronavirus" pandemic simulation exercise was held in New York on the very day the games began, sponsored by and involving some key actors in the health and pharmaceutical industry, as well as significant international experts.

The apparent suppression of reporting on "Event 201" in the mainstream media has led observers to interpret this pandemic rehearsal in the way that other coincidental exercises have been – as further evidence of "conspiracy". The involvement of CEPI director Jane Halton in Event 201 is the most indicative of these coincidences, given the role Australia is playing in pushing for an "inquiry" targeting China, and Halton's role in the National Coronavirus Coordination committee.

It is instructive to read the recommendations issued following the Event 201 exercise, particularly on the development of public-private partnerships and on the control of false information in the media, as this is reflected in the control of the "COVID-19 Pandemic" narrative here in Australia.

Although there is a divergence of opinion on how to treat the escalating conflict with China, particularly following the Chinese Government's actions on food imports from Australia, no-one in the Government, Opposition, think tanks or media is saying that China is not to blame for the pandemic, in some way or another. Influential commentators, as well as union leaders, are portraying the dispute as a choice between taking China's money or protecting our sovereignty, a position that is both idiotic and mistaken, ignoring the reality of our dependence on Chinese exports and imports.

Australians may not be able to see it, but for the Chinese foreign ministry it is crystal clear – that Australia's proposals and actions are in no-ones interest, except America's……."
